SECTION 1 MORE BEACH SAND

Yesterday the Coastal Commission approved the SANDAG Beach Sand Project that will place between 120,000 and 650,000 cubic yards of sand on our beach depending on bid prices.

From Oceanside to Imperial Beach the project will place about 2.3 million cubic yards of sand on 10 beach sites. It will help restore eroding beaches, increase sandy beach habitats for animals and plants, help beach economies, and protect public and private property. The sand placed in Imperial Beach is of at least regional significance because it serves the whole South Bay, National City, Chula Vista, and San Ysidro.

The sand for Imperial Beach also represents a partnership among the state (\$4.2 million), Port (\$1 million) and City (\$219,000).

The placement of the sand will start in April 2012.
